**RESPONSE**

Dear Sir:

In response to the Office Action mailed November 3, 2004, Applicants submit the following remarks.

**REMARKS**

Applicants respectfully traverse and request reconsideration.

Claims 1-9, 11-17, 19-24 stand rejected under 35 U.S.C. §103(a) as being unpatentable over Hung in view of Perez. Applicants respectfully reassert the relevant remarks made in the previous office action. In addition, Applicants respectfully submit that it appears that claim language is being overlooked. It appears that the first step in Applicants' claim 1 has also been completely overlooked. This portion requires, among other things, providing digital graphics data having an expected characteristic value, to a digital graphics port of a graphics controller under test and which is coupled to a computer via a bus. This limitation does not appear to be addressed in the office action and as such the office action does not provide a prima facie showing of obviousness and the claims are in condition for allowance for this reason alone.
